Your community has been identified for solar installation to help residents within disadvantaged communities located in Southern California Edison territory in Kern, Kings, and Tulare Counties.

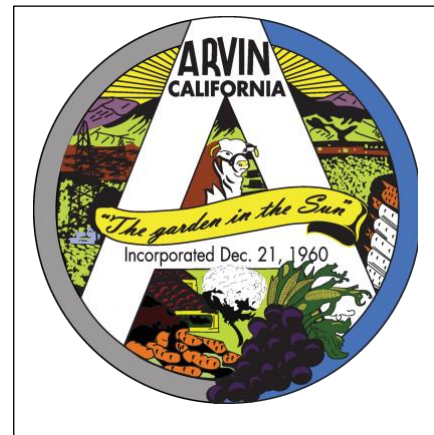

GRID Alternatives is a non-profit organization that makes solar technology and job training accessible to underserved communities. Our vision is a successful transition to clean, renewable energy that includes everyone.

Grid Alternatives., has partnered the state of California to provide no cost energy saving program for residential in PG&E(Pacific Gas and Electric) territory in Kern, Kings, and Tulare Counties.

The program is available to homeowners that are located in disadvantaged community zones.

The Energy Program is part of California Climate Investments, a statewide program that puts billions of state dollars to work reducing greenhouse gas emissions, strengthening the economy and improving public health and the environment, particularly in disadvantaged communities.

Made Possible by our Partners:

If you would like more information about this the energy savings program services, please contact Alice Gonzalez at Grid Alternatives at (559) 490-2410 or (559) 261-4745.
